NUMBER 45.

AMERICAN FLAG.

Old Glory Triumphant Floats
Over the Captain General's Palace.

SALUTE OF TWENTY-ONE GUNS FIRED.

The Spanish Troops Stack Their Arms
Between the Lines With Impressive Ceremonies.

Gen. McKibbin Acting Military Governor
of Santiago—The Harbor Cleared of
Mines and Torpedoes—13th
and 9th Infantry to Guard.

IN FRONT OF SANTIAGO, July 18, via
Guantanamo Bay.—Old Glory is now
floating over the fortifications of San-
tiago.

At 9 o'clock Sunday morning the
Spanish troops under command of
Gen. Toral left their trenches and
marched into the American lines,
where one by one the regiments laid
down their arms. At the same time
the Spanish flag was hauled down and
the stars and stripes hoisted in its
place.

The work of loading the Spanish
prisoners on transports preparatory to
sending them back to Spain will be
commenced as soon as ships are pro-
vided.

The authorities at Washington have
been urged to use haste in this matter.
It has been suggested to use Spanish
transports for the work, fear being ex-
pressed that the use of American ves-
sels would result in rendering them
dangerous for use in moving American
troops on account of the exposure of
the Spaniards to yellow fever.

WASHINGTON, July 18.—Gen. Greely,
chief signal officer, at 11:02 a. m. re-
ceived the first word of the formal sur-
render of Santiago to the American
forces. His advice came from the signal
officer at Santiago and said that the
Spanish troops left the trenches and
marched out Sunday morning, lay-
ing down their arms. The Spanish
flag was hauled down.

The war department posted the fol-
lowing bulletin at 5:15 p. m. Sunday:

SANTIAGO DE CUBA, July 18.—Adj-
utant General United States Army:—
I have the honor to announce that the
American flag has been this instant,
12 o'clock noon, hoisted over the house
of the civil government in the city of
Santiago. An immense concourse of
people present. A squad of cavalry
and a regiment of infantry presenting
arms and band playing national airs.
Light battery fired salute 21 guns.
Perfect order is being maintained by
municipal government. Distress is
very great, but little sickness in town.
Scarcely any yellow fever.

A small gunboat and about 200 sea-
men left by Cervera have surrendered
to me. Obstructions are being remov-
ed from mouth of harbor. Upon com-
ing into the city I discovered a perfect
entanglement of defenses. Fighting
as the Spaniards did the first day it
would have cost five thousand lives to
have taken it. Battalions of Spanish
troops have been depositing arms
since daylight in armory, over which I
have guard. Gen. Toral formally sur-
rendered the plaza and all stores at
9 a. m. (Signed)

W. R. SHAFTER, Major General.

SANTIAGO DE CUBA, July 18.—Amid
impressive ceremonies the Spanish
troops laid down their arms be-
tween the lines of the Spanish and
American forces at 9 o'clock Sunday
morning.

Gen. Shafter and the American di-
vision and brigade commanders and
their staffs were escorted by a troop of
cavalry and Gen. Toral and his staff by
100 picked men.

Trumpeters on both sides saluted
with flourishes.

Gen. Shafter returned to Gen. Toral
the latter's sword after it had been
handed to the American commander.

Our troops, lined up at the trenches,
were eye witnesses of the ceremony.
Gen. Shafter and his escort, accom-
panied by Gen. Toral, rode through
the city, taking formal possession.

The city had been sacked before they
arrived by the Spaniards.

At the palace elaborate ceremonies
took place. Exactly at noon the Amer-
ican flag was raised over the palace
and was saluted by 21 guns by Capt.
Capron's battery. At the same time
all the regimental bands in our line
played "The Star-Spangled Banner,"
after which President McKinley's con-
gratulatory telegram was read to each
regiment.

The 13th and 9th regiments of in-
fantry will remain in the city to enforce
order and exercise municipal author-
ity. The Spanish forces are to en-
camp outside of our lines.

SANTIAGO, Cuba, July 18.—The Amer-
ican flag is floating in triumph over
the governor's palace at Santiago de
Cuba. Gen. McKibbin has been ap-
pointed temporary military governor.

The ceremony of hoisting the stars
and stripes was worth all the blood
and treasure it cost. A vast concourse
of 10,000 people witnessed the stirring
and thrilling scene that will live
forever in the minds of all Amer-
icans present. A finer stage setting
for a dramatic episode it would be
difficult to imagine. The palace, a
picturesque old dwelling in the Moor-
ish style of architecture, faces the
Plaza de La Reina, the principal pub-
lic square. Opposite rises the impos-
ing Catholic cathedral. On one
side is a quaint brilliantly painted
building with broad verandas—the
club of San Carlos, on the other, a
building of much the same description
is the Cafe de La Venus.

Across the plaza was drawn up the
9th infantry, headed by the 6th cav-
alry band. In the street facing the
palace stood a picked troop of the 2d
cavalry, with drawn sabers, under
command of Capt. Brett. Massed on
the stone flagging between the band
and the line of horsemen were the bri-
gade commanders of Gen. Shafter's di-
vision with their staffs.

On the red-tiled roof of the palace
stood Capt. McKittrick, Lieut. Miley
and Lieut. Wheeler, immediately
above them, upon the flagstaff, the il-
luminated Spanish arms and the
legend, "Vive Alfonso XIII." All
about, pressing against the veranda
rails, crowding to windows and doors
and lining the roofs, were the people of
the town, principally women and non-
combatants. As the chimes of the old
cathedral rang out the hour of 12 the
infantry and cavalry presented arms.
Every American uncovered, and Capt.
McKittrick hoisted the stars and
stripes. As the brilliant folds unfurled
in a gentle breeze against a
fleckless sky, the cavalry band broke
into the strains of "The Star-Spangled
Banner," making the American pulse
leap and the American heart thrill with
joy.

At the same instant the sound of the
distant booming of Capt. Capron's bat-
tery, firing a salute of 21 guns, drifted
in. When the music ceased from all
directions around our line came float-
ing across the plaza the strains of the
regimental bands and the muffled,
hoarse cheers of our troops. The in-
fantry came to "order arms" a moment
later, after the flag was up, and the
band played "Rally Round the Flag,
Boys." Instantly Gen. McKibbin
called for three cheers for Gen. Shaf-
ter, which were given with great en-
thusiasm, the band playing Sousa's
"The Stars and Stripes Forever." The
ceremony over, Gen. Shafter and his
staff returned to the American lines,
leaving the city in the possession of
the municipal authorities, subject to
the control of Gen. McKibbin.

Gen. Toral, the white-haired com-
mander of the Spanish forces, is utter-
ly heart-broken. He spoke bitterly of
the fate which compelled him to sue
for peace, but had no word to say
against the gallant men who
had conquered his army. He
declared that he had little
chance to win. "I would not desire to
see my worst enemy play with the
cards I held," he said to one of the
commissioners. "Every one of my
generals was killed or wounded. I had
not a single colonel left and was sur-
rounded by a powerful enemy. We
have counted 67 ships off this port.

"And, besides," he concluded, wear-
ily waving his hands towards the city,
"I have secret troubles there."

Speaking of the battle of June 24, in
which the "rough riders" and a part of
Gen. Young's command participated,
Gen. Toral said that less than 2,000
Spanish troops were engaged, his loss
being 265. He would not say how
many Spaniards were killed at El
Caney and before Santiago. "Heavy!
heavy!" he said, dejectedly.

In response to an inquiry, he said
that transportation would be required
for between 22,000 and 25,000 men,
there being that much of a force in
the capitulated district. He informed
the officers that Santiago harbor had
been again mined since Adm. Cervera
left.

WASHINGTON, July 18.—At 11:05
o'clock Sunday night Adj. Gen. Corbin
made public the following dispatch
from Gen. Shafter:

HEADQUARTERS U. S. ARMY,
SANTIAGO, July 17.
To Adjutant General, U. S. A. Wash-
ington:

My ordnance officers report about
7,000 rifles turned in Sunday and 600-
000 cartridges. At the mouth of the
harbor there are quite a number of
fine modern guns about six inch; also
two batteries of mountain guns, to-
gether with a saluting battery of 13
d. bronze guns. Disarming and
turning in will go on Monday. List
of prisoners not yet taken.

SHAFTER,
Major General Commanding.

ON THE WAY.

The Porto Rican Expedition, Under Com-
mand of Gen. Miles, Left Siboney,
Cuba, Monday.

WASHINGTON, July 19.—Gen. Miles,
leading the Porto Rican expedition,
left Siboney, Cuba, Monday on the
Yale with four batteries of artillery
and a few seasoned troops. Two bri-
gades now at Charleston embarked
Monday on transports to take them to
Porto Rico. All the force at Tampa,
13,000 strong, embracing artillery, will
be put aboard ship as rapidly as trans-
ports can be gotten there and sent to
reinforce our other troops. Gen.
Brooke will take the first and
second divisions of his corps from
Chickamauga to Porto Rico. Gen.
Brooke left here Monday afternoon for
Chickamauga to get his troops started.
It is expected that the whole expedi-
tion will be under way within the
next four days. It has been decided
to retain Gen. Shafter's brigade at
Santiago for an indefinite period.

WASHINGTON, July 19.—It is es-
timated that Gen. Miles should arrive
by Wednesday night at the point
selected for the landing, and will
hoist the American flag at once over
Porto Rican soil. The point chosen
for his landing is kept secret, as the
General will land before the full body
of the expedition is at hand, and it is
consequently not desirable that the
enemy should be able to assemble a
superior force to meet him.

The purpose of Secretary Alger is to
make the Porto Rican campaign a short
one. An overwhelming force will be
thrown upon the island and it is pos-
sible that a bloodless victory will be
achieved when the Spanish become con-
vinced that they have no reasonable
chance to resist successfully. The ex-
pedition is to comprise 30,000 men at
the start, and it will be swelled soon
to 40,000 men and if necessary to 70,000
men, the equipment of the volunteer
forces having now progressed so well
as to warrant the statement that that
number of men can be ready for ser-
vice in Porto Rico within a very short
time.

The 1st and 5th Ohio regiments, at
Tampa, are among the troops that will
be sent to Porto Rico. The 2d, 4th and
8th Ohio regiments, the 1st and 3d
Kentucky and the 160th Indiana are
among the troops at Chickamauga
which will also be sent to Porto Rico.

WASHINGTON, July 19.—The Porto
Rico expedition is being rushed. It
was authoritatively stated Monday
night that already 6,000 regular
troops are upon transports at Tampa,
and if they have not already sailed
they will debark within the next four
days.

CERVERA'S FLEET.

The Infanta Maria Teresa and Cristobal
Colon May Be Saved—The Others
Are Hopelessly Wrecked.

OFF SANTIAGO, July 19.—Capt. Cook,
of the Brooklyn, is authority for the
statement that the former Spanish
flagship, the Infanta Maria Teresa, has
floated off the reef on which she
stranded and that her heavy armament
is practically uninjured. The captain
also says this cruiser will almost surely
be saved and form any addition to the
United States navy, a trophy of the
glorious July Third.

The Cristobal Colon may also be
saved, though a good deal depends on
the weather, which is very uncertain
at this time of the year. A heavy
storm might drive the cruiser so high
on the coral reef that it would be im-
possible to float her.

The crew of the Brooklyn regarded
the Vizcaya as their particular enemy,
since the time when both were present
at Queen Victoria's jubilee display,
when there was much comment abroad
on what a good fight might be expect-
ed between the two ships if they ever
met.

Of the four big ships which were in
Adm. Cervera's fleet only two are surely
doomed to destruction. They are the
Vizcaya and the Almirante Oquendo,
and these as a coincidence were the
two cruisers which went into Havana
harbor, after the blowing up of the
Maine and were moored near the
wreck of the United States battle
ship in all the bravery of paint,
gilding and bunting, seeming to
loat over the ruin caused, while the
people of Havana shouted themselves
hoarse, fired myriads of bombs and
bragged unceasingly of what the two
formidable armored cruisers of Spain
would do with the United States navy
should ever a fair fight be possible.

Cuban Exiles Leave for Santiago.

NEW YORK, July 19.—Cuban exiles in
this country are already making prepa-
rations to leave for Santiago, Cuba, as
the navy department, although it is
tramp steamer which will sail from
this city this week, and a Cuban who
lives here said Monday that there are
over 5,000 ready to dash into Cuba the
moment that Havana falls.

TO STORM MANILA.

Thousands of Insurgents Surround the
City and Can Enter at Any Time—
Augusti Advised to Surrender.

MANILA, July 13, via Hong Kong,
July 19.—An important interview has
just been held between Gen. Agui-
naldo's secretary, Legarda, and a
prominent native white man, and the
Spanish commander, Capt. Gen. Aug-
usti. The insurgents' representatives
urged Gen. Augusti to surrender the
city, asserting that 50,000 insurgents
surrounded Manila and were able
to enter it at any moment. Thus
far, they added, the insurgents had
been restrained with difficulty; but if
the Spaniards continued stubborn, the
result would be that the insurgents
would be compelled to bombard and
storm the city "with the inevitable
slaughter, unparalleled in history, be-
cause in the excitement of battle they
can not discriminate."

Continuing, the captain general's
visitors advised him to disregard the
official fictions regarding alleged
Spanish victories in Cuba and rein-
forcements coming to the Philippine
islands, and propose a reconciliation
between the Spaniards in the Philip-
pines, under a republican flag, and a
joint endeavor to persuade the Amer-
icans to abandon hostilities in the
Philippine islands. Finally, the repre-
sentatives of the insurgents proposed
an appeal to the powers to recognize
the independence of the Philippine
islands.

The captain general replied that he
must fight, however hopeless the Span-
ish cause.

Legarda then returned to Cavite,
taking with him the native, who is a
paroled prisoner.

The natives inside the city say they
received, a fortnight ago, a concerted
signal to prepare for storming the
walls. A second signal, fixing the
date of the assault, has not yet been
issued, and they are tired of waiting
and are losing faith in Aguinaldo.

The latter, it is alleged, finds it ex-
tremely difficult to capture the town
of Manila. His previous successes,
his capture of Cavite, were easy, because
of the nature of the country, which suit-
ed his skirmishers. It is further al-
leged that the principal points cap-
tured by the insurgents were obtained
in possession of through treachery.

The insurgents are now bringing
artillery around by sea from Mala-
bon, which is tedious and trouble-
some work. They are also obtaining
tailed reports of the condition of
affairs from the inside of the city.

Adm. Dewey is establishing a more
strict blockade, lest it be invalidated
by permitting neutrals to visit Cavite
and Malabon, and send and receive
mails inclosing surreptitious Spanish
spatches. He has threatened to sta-
tion warships opposite the city, which
might precipitate hostilities, as the
Spanish officers declare they will cer-
tainly fire on any American within
range, regardless of the consequences.
The second installment of American
troops is expected here daily and the
detachments are booked to arrive
early in August. Probably military
operations will be deferred until
September dry season, when it is
drier, and, possibly, then bloodshed
may be unnecessary.

A Spanish steamer, the Filipinas,
just been brought in here in the
hands of the insurgents. It appears
that she was on the northern coast
escaping to China with a native
crew on board, when the latter revolt-
ed, killed the Spanish officers and
sought the vessel to Cavite.

Spaniards are daily employing con-
sults to fell trees and burn huts on the
skirts of the town. Fusillades con-
sue, but otherwise the position is
unchanged. The stock of flour is prac-
tically exhausted, but the supplies of
beef and buffalo meat will last for
some longer.

Bread Riots in Spain.

LONDON, July 19.—The Madrid cor-
respondent of the Daily Telegraph,
telegraphing Sunday, says: Riots
have broken out at Huelva, capital of
the Province of Huelva, in Andalusia.
The inhabitants marched to the mun-
icipal buildings, shouting for cheap
bread. Rioters to the number of 4-
5,000, sacked many private houses. They
are finally dispersed by the military,
and energetic measures will be taken
to prevent a renewal of the distur-
bances. Senor Emilio Castelar, the re-
publican leader, who is now in South-
Spain, where he has gone to spend
the summer, is about to return to
Madrid. Gen. Polavieja is also re-
turning from a French watering place.

Sampson's Report on the Way.

WASHINGTON, July 19.—Adm. Samp-
son's report on the destruction of Cer-
vera's squadron has not yet reached
the navy department, although it is
tramp steamer which will sail from
this city this week, and a Cuban who
lives here said Monday that there are
over 5,000 ready to dash into Cuba the
moment that Havana falls.

FOR CONGRESS

HON. G. G. GILBERT,
OF SHELBY.

The Pathfinder is the name of W. B. Hudson's new paper just started at Barboursville. It is a bright and crisp sheet and under Mr. Hudson's guiding hand, we predict a successful journal.

The Gentry reunion which begins at Crab Orchard Springs, Aug. 1st, will be the largest family reunion that has ever occurred in America.

The following from Interior Journal fits our case exactly:

"While very much preferring Gov. McCreary because we thought him the best equipped and strongest man, we shall give the Hon. G. G. Gilbert, of Shelby, the nomination of the Danville convention for congress in this district, our unqualified and cordial support. He is a good man, a capable man and a sound democrat, and no one who loves his party and desires its success, will do otherwise than work for and vote for the excellent gentleman from Shelby."

EUROPEAN nations are having their eyes opened on the subject of American patriotism. The blue and the gray march shoulder to shoulder and the rich and the poor meet on a common level. Among Roosevelt's "rough riders" may be found the sons of federal and confederate soldiers, and sons of millionaires of the east ride side by side with the cowboy of the western plains. The solution of the mystery is that we are a nation of patriots, and that love of country is common to all sections and classes.

R. S. Martin, Brodhead's tobacco manufacturer, has expended, during the existence of his factory more than \$150,000 for leaf tobacco and the labor in working it up. Most of this money went to other countries from the fact our people have not taken enough interest in tobacco raising to furnish this factory with but a small quantity of the weed. This money could in future easily be kept in the county if her citizens would turn their attention to their own interests in this line. It has been fully demonstrated, time and again, that our soil is adapted to the culture of fine and medium grades of tobacco. Too many are engaged in getting out fence posts, cross ties and the like. It has been suggested that inasmuch as there are thousands of acres in the Southern part of this county that can be bought at \$2 per acre that some of our enterprising citizens purchase a thousand or so acres and colonize it with families from North Carolina, who are practical tobacco raisers or from North and Central Kentucky where great crops are raised but the renter has to give the larger portion for rent of ground. By so doing it would be but a few years before our county would be in a much improved condition. Mr. Martin who is an enterprising man and who has done as much or more than any citizen for the prosperity of this locality, would gladly purchase most if not all the tobacco that is raised in the county besides lending aid and assistance in getting such a move on foot. Jealousies should be thrown aside and every encouragement lent to any legitimate enterprise which tends to the betterment of our people's interests.

Let the question be agitated and a plan be formulated and carried out.

He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duties at hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I would fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by M. C. & D. N. Williams.

The best way for a young man to begin who is without friends or influence is first, by getting a position; second, keeping his mouth shut; third, observing; fourth, being faithful; fifth, making his employer think he would be lost in a fog without him, and sixth, being polite.—Russell Sage.

There is small pox in Jackson Clay and Laurel. The origin has been traced to Richmond, from whose pest house a subject escaped and went to Jackson, some months since, and the disease which is of a light form has spread from there into Clay and Laurel. The State Board of Health are in charge and will use every effort to eradicate the plague.

Messrs W. R. Scott and J. F. Murphy were up from Danville Saturday looking over their lime works at White Rock. They are expecting to fire their kiln inside of three weeks. The plant is being put in of first-class material and workmanship. Considerable money has already been expended and our people are reaping benefits from the works. It is the intention of the company to make it a Rockcastle institution, as far as possible, by employing local labor, coal, and other supplies. The firm is composed of first-class men of good business qualifications and there is not a doubt of the success of the undertaking.

These dues mean you, if you owe on subscription.

If you want to get mad about it and pay up your dues, very well and good. Its better that way than to keep in good humor and never pay.

CAMP CORBIN—Lexington, Ky. July 14th, 1898.

Dear SIGNAL: Co. G. sends greetings. Every one in good health and high spirits. Under the branches of a pine tree stands a tent which is known as Piney Branch. In this tent resides twelve gentlemen from Rockcastle; the aforesaid tent is the most orderly tent in the camp, but when the shades of night approach and all honest people are in the bed sleeping soundly, you can hear any sound from the chirping of a cricket to the bellowing of a bull. All honor, for such a variety of mimicry to the twelve gentlemen that reside therein. All the camp expresses their heartfelt sympathy for the gallant lad David Herrin who wished to meet the Spaniards and bare his bosom to the hail of their merciless bullets, and they lament with tears that the heartless doctors should have rejected him. The other day a man tried to override chief cook Tommy Thompson's table laws, but Tommy was at his post and enforced it with a butcher-knife; after a hot argument and cries of "hold him!" "ketch him!" The smoke all cleared up and we found that no one was hurt. An arrogant newspaper man was recommended to Col. Colson as first Sargent for our company; and sworn in as such, but the Rockcastle boys thought different and promoted him to the rank of private in company G. I am now in headquarters of our company with Lieut. Lewis, he has a nice little cot on which to spend his time that he is not spending at the table. We have for our guest today James Croucher, an old resident of Rockcastle county. The boys are always glad to have him with them. Abel Pennington is with us and well satisfied for he is Corporal of the commissary department for company G. Our examination took place last Saturday and there were few rejected. The doctor said we were the finest lot of men they had examined. We were mustered in Wednesday evening and took the oath of allegiance to our country and its flag. We will receive our uniforms on the 16th then we will become soldiers in fact. The most exciting incident that has occurred in our company, or in the regiment was over private Isaacs who refused to muster in the evening we started to muster. Lieut. Lewis prevailed on him to fall in but he flatly refused; he was taken before Col. Colson but still refused he was then sent to the guard house, kept there for two hours he was then placed in front of two sentinels; the drum and fife were called for, all the companies formed in line. They played the "Rogue's March," and the poor fellow was marched down the line to be hissed at and called coward! deserter! and a great many other nice names which he will remember as long as he lives. We expect to leave here for Chickamauga or San Francisco as soon as the last company is mustered in which will be in a few days. All are anxious to get to the front and return with Spanish scalps dangling from their belts.

John Gentry got a furlough and left here a foot to-day. He will reach Mt. Vernon about sun-down Sunday.

Big John Parker thinks we are to go to Central America.

Dave Barns is counted among the missing.

Lieut. Lewis will come home Sunday if the tailors get his uniform finished.

Tom McClure is getting fat.

Albert Albright is a member of the regimental band. He is now at home for a few days.

We have an excellent drill master. We drill two hours in forenoon and two after.

Tell Logan Thompson to come over and bring a dollar along to get tobacco for the boys.

John Rickels is happy.

The SIGNAL is a very welcome visitor to company G.

Tommy Thompson is the clown of the company, and chief cook and bottle-washer.

Lieut. Dillon makes a fine appearance in uniform.

Wm. Browning, though the smallest man in the company, keeps up with the biggest of them.

A half dozen Spanish scalps have been ordered sent to Mt. Vernon to adorn the belts of the Rockcastle deserters.

The three Whitaker boys, Burdine, Jim and Dick, are with us and will make good soldiers.

Our company is composed mostly of Owsley and Rockcastle men, but have men from nearly every eastern county and two from Germany.

Emil Suter, stone mason, from Mt. Vernon, is a German veteran of ten years service in the old country.

Emil Henzman walks as straight and erect as an old veteran.

Our friends should address letters, Care Capt. Treadway, Co. G. Camp Corbin, Lexington, Ky. BILLY SYMPSON.

J. C. Roberts was here from Stanford Yesterday.

August 18th, is the day set for the execution of the negro George Strepenson who killed young Telfrey at Crab Orchard on July 4th.

PICNIC—Owing to its having rained on July 4th, I will have another picnic at my beautiful grove 2 miles east of Brodhead, for the accommodation of all, especially those who missed the enjoyment of the day on account of the rain. Everything will be done to make the day enjoyable. Come everybody. W. G. ADAMS.

Our baby has been continually troubled with colic and cholera infantum since his birth and all that we could do for him did not seem to give more than temporary relief until we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. Since giving that remedy he has not been troubled. We want to give you this testimonial as an evidence of our gratitude not that you need it to advertise your meritorious remedy.—G. M. STRAINING A FRIENDSHIP.

A Story Which Snapped the Bonds That United Two Sweet Young Things.

They were standing at the counter, and I couldn't help but hear.

"Talk about hard luck," said the girl with the hot chocolate. "I know a woman who had an awful thing happen to her over in New York."

"Oh, do tell me about it," gurgled the girl with the ice cream soda.

"Well," went on the chocolate girl, "she's not wealthy at all, you know, and she doesn't go to a nurse. So, one day, when she had to go down town shopping, she took her baby, and left it at one of these day nursery creche places. They gave me a check for it, and she went off shopping. She didn't come back to the creche till late in the afternoon, and when she went to take out the check it was gone."

"Good gracious!" said the girl with the ice cream soda, looking shocked. "What did she do?"

"Well," went on the chocolate girl, "they told her she couldn't take the baby without a check, and she'd have to wait till the other babies were taken away, and then she could have what was left. So she waited for hours and hours, till all the babies were gone but one, and when she went to get that—well, the only baby left was a colored baby."

"Oh, how perfectly awful!" exclaimed the girl with the ice cream soda, in accents of horror. "What did she do? Wasn't she perfectly frantic? My goodness, how horrible! Didn't she ever get her baby back again? I should think she'd have been perfectly crazy. What did she do?"

"Oh, said the chocolate girl, coolly, "she took the colored baby. It was hers. She was colored, you know."

And in the silence which followed I could hear the snapping of the bonds of a tender and lifelong friendship.—Washington Post.

The Climate of Cuba.

Because of frequent rains in Cuba, malarial fevers are a common ailment there, just as they are in many sections of the United States. Ailments of this kind, no matter in what part of the globe they occur, are quickly cured with Hostetter's Stomach Bitters. Besides being a specific for malarial troubles, these Bitters also make pure blood, strengthen nerves and muscles, and firm, healthy flesh. They have no equal for dyspepsia and constipation.

A HISTORIC PAPER.

McKinley Issues Orders Instructing Gen. Shafter in the Santiago Government.—New Epoch in History.

WASHINGTON, July 19.—A state paper that will be historic, marking an epoch in American history, was issued Monday night by direction of President McKinley.

By order of Secretary Alger, Gen. Corbin Monday night cabled the document to Gen. Shafter, in command of the military forces at Santiago. The paper is not only an authorization and instruction of Gen. Shafter for the government of the captured territory, but also a proclamation to the people of the territory of the intentions of the government of the United States regarding them and their interests. It marks the formal establishment of a new political power in the island of Cuba and insures to the people of the territory over which the power extends absolute security in the exercise of their private rights and relations, as well as security to their persons and property.

The first effect of the military occupation of the enemy's territory is the severance of the former political relations of the inhabitants, and the establishment of a new political power. Under this changed condition of things, the inhabitants so long as they perform their duties, are entitled to security in their persons and property and in all their private rights and relations.

The United States does not make war upon the inhabitants of Cuba, nor upon any party or faction among them, but to protect them in their homes, in their employments and in their personal and religious rights. All persons who, either by active aid or by honest submission, co-operate with the United States in its efforts to give effect to this beneficent purpose, will receive the reward of its support and protection.

Though the powers of the military occupant are absolute and supreme, and immediately operate upon the political condition of the inhabitants, the municipal laws of the conquered territory, such as affect private rights of person and property, and provide for the punishment of crime are considered as continuing in force, so far as they are compatible with the new order of things, until they are suspended or superseded by the occupying belligerent, and in practice they are not usually abrogated, but are allowed to remain in force and to be administered by the ordinary tribunal, substantially as they were before the occupation.

It is conceded that all public funds and securities belonging to the government of the country in its own right, and all arms and supplies and other movable property of such government, may be seized by the military occupant and converted to his own use. The real property of the state he may hold and administer, at the same time enjoying the revenues thereof, but he is not to destroy it save in the case of military necessity. All public means of transportation, such as telegraph lines, cables, railways and boats belonging to the state may be appropriated to his use, but, unless in case of military necessity, they are not to be destroyed.

All churches and buildings devoted to religious worship and to the arts and sciences, all school houses, are, so far as possible, to be protected and all destruction or intentional defacement of such places of historical monuments or archives or of works of science or art is prohibited, save when required by urgent military necessity.

As the result of military occupation, the taxes and duties payable by the inhabitants to the former government become payable to the military occupant, unless he sees fit to substitute for them other rates or modes of contribution to the expenses of the government. The moneys so collected are to be used for the purpose of paying the expenses of government under the military occupation, such as the salaries of the judges and the police, and for the payment of the expenses of the army.

Private property taken for the use of the army is to be paid for when possible in cash at a fair valuation and when payments in cash is not possible, receipts are to be given.

All ports and places in Cuba which may be in the actual possession of our land and naval forces will be opened to the commerce of all neutral nations, as well as our own, in articles not contraband of war, upon payment of the prescribed rates of duty which may be in force at the time of the importation.

Poor Diggings in Copper River.

SEATTLE, Wash., July 19.—Over 100 Copper river miners have arrived here from Port Valdes. They found no gold in quantity sufficient to pay for working. Capt. Erickson, of the Protection, reports Valdes crowded with men wanting to return.

Bombardment of Manzanillo.

LONDON, July 19.—A special dispatch from Havana, dated Monday, says: "Seven American warships heavily bombarded Manzanillo this morning. Three steamers of the Menendez line were set on fire. Several gunboats that were in the harbor issued for the defense of the town, but were stranded. The result of the bombardment is not yet known here."

The commissioner of internal revenue has held that receipts used as checks to draw money from banks are subject to the stamp tax.

EXTRACTING THE YOUNG IDEA.

The Infant Mind Is One of the Profound Mysteries of Nature—Some Instances.

Two events of one day convinced a young lady of Piety Hill that the infant mind is one of the most profound mysteries of nature. It was her first effort with a class of little Sunday school children, and after talking with them in her most impressive way for half an hour she asked her precious charges what they thought of their lessons. One little girl with golden hair and great blue eyes such as artists love to reproduce in themes divine indicated a desire to speak.

"What is it, my dear?" "Miss Earnest, if you lived to be a hundred years old you'd never have a prettier hat than the one what you got on now."

The second developed later in the day. She told the little ones that they must not let the weeds grow up in their hearts, for they were the weeds of sin and worse than death. One fat cherub who had never known what it was to be sick set up a howl as soon as he reached home. Being short on a knowledge of anatomy he sat holding his digestive apparatus and declaring that the weeds growing in his heart were "a most killin'" him. Ignorant of the cause of alarm, the terrified parents kept the telephone wires hot till they secured the presence of three doctors who were quickly followed by others who had not been in when called. While the others were gravely consulting, one shrewd practitioner extracted the story of the Sunday school lesson and administered a dose of sugar and water. Ten minutes later the little fellow was telling how near he came to dying, while he was eating enough for a harvest hand.—Detroit Free Press.

Paris Expositions.

Paris' 1900 exhibition will be the sixteenth held in the city. The site of the first, in 1798, was the Champ de Mars, where 110 exhibitors showed their wares in wooden booths and 25 medals were awarded. Three successively large exhibitions followed in the Louvre in 1801, 1802 and 1809. Under the restoration there were exhibitions in 1819, 1822 and 1827, also in the Louvre. They became more popular under Louis Philippe, the number of exhibitors making it necessary to use first the Place du Carrousel, and in 1839 and 1844 the Champs Elysees. The 1849 exhibition in the Champs Elysees required 2,200 square meters of space and cost \$120,000. The first international exhibition, in 1855, brought about the construction of the Palais de l'Industrie, that has just been torn down, which was used for the 1867 exhibition. The 1878 exhibition, with 52,835 exhibitors and 16,000,000 visitors, and that of 1889, with 55,486 exhibitors and 32,500,000 visitors, were held on the Champs de Mars.—N. Y. Sun.

To Wash Silk Stockings.

Silk stockings should be washed and rinsed only in lukewarm water. Wring the stockings out between towels and press under muslin. Silk underwear is best washed by soaking for 15 minutes in lukewarm suds into which a little ammonia water has been put. Never put any soap directly on the garment, and it should never be rubbed, merely squeezed gently through the fingers and rinsed through one or two waters, all lukewarm. In the last water put a very little bluing solution and a teaspoonful of liquid gum arabic. Shake well and hang to dry in as smooth condition as possible, pressing lightly under a towel while still slightly wet.—Housewife.

Beyond His Reach.

The count became passionate in his pleading.
"Be mine!" he cried. "I have titles and landed estates! I will give you a position in the society in which loyalty moves! Say that I may hope for you!"

She sighed, blushed and shook her head.

"You got into the market too late, count," she said in a business-like way. "It has already been cornered."

The next day her engagement to a young man on the board of trade was announced.—Chicago Post.

THE DIGNIFIED WOMAN.

She Was a Little Severe on the Curious Woman, But She Was Provoked.

She is a dignified woman, and sometimes she is overpowering. The unwary do not perceive this quickly, however. The dignified woman has been spending some time in one of the hospitals of this city. She went there for rest and quiet. Since she has recovered her health she tells some amusing stories of her experiences. Here is one:

The dignified woman was walking down the hall one day when she was accosted by the curious woman. The curious woman had been wondering about the dignified woman, and she said:

"I beg your pardon, madam, but I would like to know what you have been operated on for?"

"What?" exclaimed the dignified woman. "Well, explained the curious woman, 'my friend in the next room and I have been wondering about you. You walk about the hall with such a light and springy step that we wonder about what kind of an operation you have undergone.'"

The curious woman held her ground. She was determined to know what was the matter with the dignified woman.

The dignified woman replied:

"I have not been operated upon yet."

"Oh!" said the curious woman, sympathetically.

"No, I am not familiar with operations," said the dignified woman.

The curious woman interrupted: "They are very successful here. Don't be worried."

"I am wondering about an operation on the brain," said the dignified woman, in a very dignified and distant manner. "I wonder if they could operate upon the brain in such a way as to enable people to attend to their own affairs."

The curious woman snorted and walked away in high dudgeon.

The dignified woman was severe, it is true, but she was provoked to it.—St. Louis Republic.

STONE IN HER STOMACH.

From the Gazette, Blandinsville, Ill.
The wife of the Rev. A. R. Adams, pastor of the Bedford Christian Church at Blandinsville, Ill., was for years compelled to live a life of torture from disease. Her case baffled the physicians, but to-day she is alive and well, and tells the story of her recovery as follows:

"About six years ago," said Mrs. Adams, "I weighed about 140 pounds, but my health began to fail and I lost flesh. My food did not agree with me and felt like a stone in my stomach. I began to bloat all over until I thought I had dropped."

"I had pains and soreness in my left side which extended clear across my back and also into the region of my heart. During these spells a hard ridge would appear in the left side of my stomach and around the left side."

"These attacks left me sore and exhausted. All last summer I was so nervous that the children laughing and playing nearly drove me wild. I suffered also from female troubles and doctored with ten different physicians without receiving any help."

"My husband, having read in the newspaper of Dr. Williams' Pink Pills for Pale People, induced me to try them. I began taking them last November, but experienced no relief until I had taken six boxes."

"I am now taking the eleventh box and have been greatly benefited."

"I was also troubled with nervous prostration and numbness of my right arm and hand so that at times I could hardly endure the pain, but that has all passed away. I now have a good appetite and am able to do my own work. Have done more this summer than in the past four years put together. Dr. Williams' Pink Pills for Pale People cured me and I think it my duty to let other sufferers know it."

Hundreds of equally remarkable cases have been cured by Dr. Williams' Pink Pills.

Rather Antique.

Dunn—Indeed! What is the nature of your discovery?
Gunn—Powder that's absolutely noiseless.

The hair

is like a plant. What makes the plant fade and wither? Usually lack of necessary nourishment. The reason why Dr. Ayer's Hair Vigor restores gray or faded hair to its normal color, stops hair from falling, and makes it grow, is because it supplies the nourishment the hair needs.

"When a girl at school, in Reading, Ohio, I had a severe attack of brain fever. On my recovery, I found myself perfectly bald and, for a long time, I feared I should be permanently so. Friends urged me to use Dr. Ayer's Hair Vigor, and, on doing so, my hair immediately began to grow, and I now have as much and fine a head of hair as one could wish for, being changed, however, from blonde to dark brown."—Mrs. J.
